Continuation of 10. Other (including any explanation in support of the above items): For each independent claim involved in the appeal and for each dependent claim argued separately under the provisions of 37 CFR 41.37(c)(1)(vii). If appellant does not provide a summary of the claimed subject matter as required by 37 CFR 41.37(c)(1)(v), such as in this instant case, wherein section (vii) Arguments including grouping of the claims wherein the dependent claims are mentioned as being patentable separate invention, the applicant, however has not provided any evidence on how and why the inventions are separately patentable. Appellant argues claims that were rejected under different grounds of rejection together in a single group. For instance, Group V contains claims 12-16. Yet Claims 12 & 13 are rejected under different grounds of rejection.
